

## Community Media

We can no longer depend on those outside of our community to provide friendly news and entertainment for us. We must take control of our own media production and distribution.

The ENA Community Corps is constantly working to develop our own alternative, fun and friendly media, video and audio news and entertainment programs.

If you have skills in the areas of audio, video or media production, or if you want to learn and work to develop them, contact your local Community Corps representative to find out what programs are currently being developed.

## Volunteers and Dedicated Jobs

If you'd like to volunteer to help with any of the activities listed here, or if you have ideas for other community activities, we'd love to hear from you.

If you'd like to dedicate yourself to a job, we're always looking for committed people who want to assume responsibility for some activities.

Contact your local Community Corps representative to see how you can get involved.

**We, Ourselves, Together**

**Let's Build Our  
Community  
You and the Community Corps**

## Vendor Opportunities

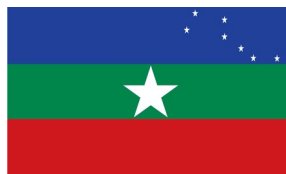

If you have specialty or general products that you think would be of interest in the Euramerican national community, see if there are opportunities for you to reach the community.

The Community Corps like to work with vendors who provide friendly, useful, unique products and create business opportunities at our events.

We will establish some ground rules to make sure that the community's needs are considered first, but this could be a great opportunity for you to vend at our events.

Contact your local Community Corps representative to find out about vending opportunities at our community events.

Contact us to reach a local representative:

## Celebrate our History and Heritage!

Do you play a traditional instrument? Do you sing a folk song from our people's history? Share it and teach it.

One of the easiest things we can do is celebrate and share our history and heritage among ourselves.

From Music Festivals, Dances, Historical Readings, stories about your personal heritage, or the heritage of our people, these are all activities that enrich our sense of community together.

If you play an instrument, have a musical ensemble, have exciting historical stories to share, know a formal dance, sing beautiful songs, make historical crafts then share them with your community!

Contact your Community Corps representative if you want to get involved.

## Food Outreach Project

We need to help the people in our community who are facing hard times. If you need help, or you want to help others in our community, contact your local Community Corps representative.

## Develop our Community Schools

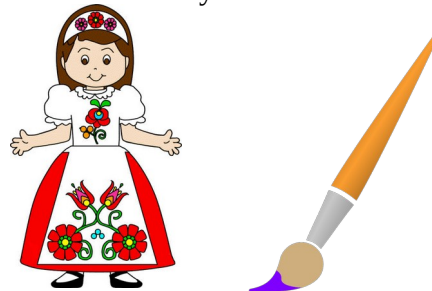

We have it within our abilities to provide exceptional, wholesome, and interesting education to the children of our community. Education that cares about us and our heritage and makes it a central part of the education curriculum.

Work with the Community Corps to develop home-schooling curricula, or even develop neighborhood schools.

Contact your Community Corps representative if you want to get involved.

## Arts and Crafts Activities

Contact your local Community Corps representative to find out about children's arts and crafts activities in your area.

## Celebrations, Festivals and Fairs

We need to gather together regularly and have celebrations and festivals.

Your local Community Corps maintains a schedule of events and celebrations. Find out how to get involved or when and where they'll be in your area.

## Emergency Resiliency

Natural and other disasters are something that we can prepare for. We can work together, prepare for these events, and teach other to be more resilient. When an emergency strikes, we can work together to ride out the storm.

Learn what foods to store, how to store them, how to prepare canned goods and learn a host of other knowledge and skills. If you have knowledge to share, make it available to members of our community.

Contact your local Community Corps representative to find out about resiliency activities in your area.
